CLOCKS & METEOROLOGY

R175D GOLD BRASS NAUTICAL CLOCK

OVERVIEW

The 175D golden marine clock is a medium to large range of instruments suitable for pleasure craft and small commercial vessels. The range consists of four instruments: watch, barometer, clinometer and comfortometer (combination of thermometer and hygrometer).

The brass binnacles have been "Flash" plated with 18 carat gold using an advanced brass plating technology that makes our instrument binnacles maintenance free. They are highly resistant to salt spray and will not rust or darken in marine environments, so the appearance of the brass will always remain the same, even if it is exposed to the marine environment for a long time.

SPECIFICATIONS

- **Battery:** 1-IEC R6 (AA)
- **Quartz Frequency:** 32.786 KHz
- **Operation Voltage:** 1.2V - 1.7V
- **Time Keeping Accuracy:** DIN 8325
- **Operating Temperature Range:** -5°C +50°C

APPROVAL
