

Single Use Fire Blanket The most effective way to isolate fires on Li-ion powered Vehicles and Devices. 550°C

CHARACTERISTICS	
Item	Lithium fire blanket 550°C
Material	0.45mm both sides silicone coated fiberglass fabric
Warp yarn	(tex) EC9-48*1*3S110
Weft yarn	tex) EC9-48*1*3S110
Thread count	(per cm) 18*12
Based fabric weight	430g/m2
Coating	Silicone
Coating weight	50g/m2
Thickness	0.45mm
Color	Grey/blue/red/orange/black
Tensile strength	2300 x 1500N/5cm
Temperature resistance	silicone rubber (-70 to 280 degree C), fiberglass fabric 550°C

Available sizes;

Size	Weight
1.5x1.5mtr	1.8kg
3x3mtr	5.7kg
5x5mtr	14.5kg
6x8mtr	28kg
